today on the wheat market here, offsetting to a considerable extent the effect of favorable weather for the movement of the spring-sown crop in the United States. The wheat market was steady the entire session, notwithstanding a bearish attitude on the part of pit traders, who were influenced chiefly by clear weather in the Northwest. Buying of the May delivery by commission houses was a feature of trading. Another feature was support of December by a leading long.

The firm tone of the Liverpool market, said to be due to an advance of 8d in Russian offerings, imparted more or less firmness to the market here from the start, initial quotations on December being a shade to ¼@¼c higher at 87½ to 87½c.

Weekly statistics were considered beartish. The amount of breadstuffs on passage for the week increased 1.488,000 bushels, compared with the total for the previous week. There was an almost similar amount of decrease for the corresponding week last year. World shipments were liberal, totalling 12.016,000 bushels, against 16.672,000 bushels last week and 10,920,000 bushels a year ago.

These statistics, in conjunction with weather conditions in the United States seemed to leave a depressing tendency on the minds of many traders. The bears, however, were held in check by demand from a prominent bull who bought on every indication of a elump in values. In consequence selling was not of great volume.

Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters street, make public the following letters on the stock market:

T. A. McIntyre & Co.. New York say:

The early market was strong but in the last hour a general profit-taking movement carried prices down from one-half to one point from the early high level, but there was no aggressive seiling pressure and the reaction was an orderly one. We have had a very substantial recovery from the low prices of last week and in view of this we would favor taking profits on the buiges and buying on sharp recossions. There is no reason to believe that any attempt will be made to start a sustained buill movement in stocks from sustained bull movement in stocks from the present level until after uncertainty regarding the money market has been re-

MEN! TRY THIS

I believe in a fair deal. If you have a good thing and know it yourself, give others a chance to edjoy it in a way they can afford.

I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with a pain or an ache, to get the benefit of my invention.

Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money new until they know what they are paying for.

If you are that kind of a man, this belt is rours without a cent of cost to you until you are ready to say to me. "Dector, you have earned your price and here it is."

That's trusting you a good deal and it is showing a good deal of condisence in my—s. Hut I know that most men are honest especially when they have been cured of a serious aliment and very few will impose on me. As to what my belt will do, I know that it will cure wherever there is a possible chance, and there is a good chance in nine cfees out of ten.

So you can afford to let me try anyway, and I'll take the chances. If you are not sick, don't trike with me, but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.

I want you to know what I have done for

I want you to know what I have done for

Dr. McLaughlin.

Dear Sir.—I am entirely cured of my rheumatiem and I think that your Belt is the
best and surest cure for all kinds of sickness I have recommended it to many acqualintances of mine and they say they will
bled with rheumatism, and are surprised at my cure. You may use this letter in your
advertisement or in any other manner you may wish. Yours respectfully, G. HELM.

But some man don't believe the surprised at my cure and the surprised at my cure.

But some men don't believe anything until they see it. That's why I make this offer I want to let you see it, and feel it, and know it by your own experience, before I get a cent.

If I gen't cure you, my belt comes back to me and we quit friends. Tou are out the time you spend on it—wearing it while you sleep—nothing more.

But I expect to cure you if I take your case. If I think I can't cure you I'll tell you so, and not waste your time. Anyway, try me. at my expense. Come and see me and let me show you what I have, or, if you can't, then cut out this ad, and send it in. It will bring you a description of my belt and a book that will impire you to be a man among men, all free.

We guarantee to cure the Whiskey and Beer Habit in 3 days, with no bad after effects that follow other so-called cures. No corrosive minerals in our medicine. Just simple but effective vegetable medicines. No Notoriety or Publicity. No sickening nor namesating drugs.

Some Institutes will keep a man for two weeks, and if they do not succeed in sobering him in that time will turn him out, but will not refund the fee paid for treatment. That shows that the patient has to use his WILL POWER in order to quit. No will power is at all necessary with the 'Three Day Liquor Cure' treatment. IT CURES.

Is it worth three days of your time and a reasonable price to be forever rill of the liquor habit?

Is it worth your while to sgain be in a position to lead a life of sobriety and to "TYPREE DAY LIQUOR CURE." He

buying again.

Dick Bros., New York, say. "The market has been active and strong again today, but there was some very heavy profit-taking, which caused more or less irregularity. Most of the leading shares went to the best prices seen for some time, but industrial specialities were the real features, nearly all of them being advanced by manipulation. Money ruled at 4½ per cent, but sterling exchange made a further advance towards the gold experting point. The market was reactionary in the last half hour but the closing while below the high level, was not weak."

"The market was again a field for an active movement and the volume of trading proved to have exceeded all recent daily records. The market generally was a good one. London was a fair trader on balance, buying perhaps 20,000 shares. The market seems strong enough to endure an ordinary setback and still retain a good tone and form a satisfactory basis for buying again." Dick Bros. New York, say. "The mar-Silver and Drafts.

not weak."

Logan & Bryan, New York, say: "Manipulation in specialties continues to be the feature of stock market and the ease with which advances are obtained encourages outside speculation to some extent, but the public interest is still comparatively small. The buying is not as aggressive as heretofore and the trade mostly professional. Any attempt on the part of professionals to unload will most likely cause sharp decline. The money murket continues to be the barometer, as rates today were somewhat firmer, around \$\text{8}\empty\$, per cent. Occasional flurries are not improbable."
